ISO

ADVANCED

WHEY PROTEIN ISOLATE

ISO ADVANCED uses only pure Cross Flow Micro Filtered Whey Protein Isolate 90%, no added amino acids, no creamers and no soy. ISO ADVANCED contains 30gr of the highest quality Whey Protein Isolate and is sugar free and low in or fat free.

ISO ADVANCED whey protein isolate contains only the highest rated Biological Value (BV) protein available and is easily and rapidly digested. High in naturally occurring key amino acids L-Glutamine and BCAA's that help stop and reverse the damage from training to help you build quality muscle and increase recovery time.

All PROLINE products deliver full disclosure of all ingredients and clinically proven doses so you know exactly what you're getting every time and we have even taken the unprecedented step of listing not just the grade of protein used, but how much is used.

CLEAN

MUSCLE LEAN GAINER

CLEAN MUSCLE lean 2:1 carb to protein ratio uses only the highest quality ingredients will help you gain lean muscle without the fat because after all, the goal is to be big and lean, not big and fat. When looking for a clean gainer, less is more.

- 2:1 Carb to Protein Ratio
- 1 Carb Source, 1 Protein Source, 1 Fat Source

Quality Carb - NON GMO pea starch - a revolutionary low glycemic long lasting carb designed to optimally feed your muscles for maximum growth without the unwanted fat. Most gainers on the market use inferior carb sources to save cost and hide behind proprietary blends so you don't know what you're really paying for.

Quality Protein - Pure Whey protein concentrate 80% the gold standard of whey proteins. Easily digestible and quickly provides the building blocks to help you build muscle rapidly.

All PROLINE products deliver full disclosure of all ingredients and clinically proven doses so you know exactly what you're getting every time.

VEGAN BCAA

PROLINE's 100% Natural Pharmaceutical Grade VEGAN sourced BCAA provides a 2:1:1 ratio of Branched Chain Amino Acids, L-Leucine, L-Valine and L-Isoleucine in each serving. Branched Chain Amino Acids are anti-catabolic building blocks that protect your muscles and ensure a positive nitrogen balance. Using instantized BCAA's ensures rapid solubility which means better absorption and faster transit times.

100% PURE GLUTAMINE

PROLINE's Pharmaceutical Grade 100% PURE GLUTAMINE™ is the most abundant amino acid in the body comprising more than 60% of the free amino acid pool in skeletal muscle & greater than 20% of total circulating amino acids. After training, you deplete your glutamine concentrations by 40% triggering muscle catabolism, Glutamine counteracts this & helps you repair muscle cells quickly & maintains optimal muscle function. L-Glutamine may help reduce muscle soreness & rebuild muscle tissue.

CREATINE HCL

PROLINE's **CREATINE HCL™** is a highly concentrated form of creatine hydrochloride. **CREATINE HCL** is scientifically proven to help increase size, strength and power of the muscles by increasing their cell volumization. Experts consider the HCL form of creatine to be the most soluble, most bioavailable and most absorbent creatine on the market today. The benefit of taking **CREATINE HCL** is there's no loading phase, no cycling on and off, no bloating and no water retention. PROLINE's **CREATINE HCL** requires a much smaller dose because of its purity and quality.

TRIBULUS

TRIBULUS Terrestris is a naturally occurring herb found in Europe, and usually sourced from Bulgaria. Tribulus Terrestris is the closest and strongest all natural herbal alternative to synthetic anabolic hormones. This non-hormonal supplement is proven to increase testosterone levels in humans.

TRIBULUS Terrestris causes your body to release luteinizing hormone, which in turn then signals testicles in males, the ovary in females and the adrenal gland in both sexes, to naturally produce more testosterone. In males, testosterone is responsible for male characteristics, libido, regulating puberty, sperm production, metabolism and the growth of all body tissues including muscles. Testosterone promotes protein synthesis and positive nitrogen balance, which is beneficial for muscle cell growth and increased body strength, as well as faster recovery after a work out.

TRIBULUS leads to an increase in the production of natural levels of testosterone in the body. Tribulus has been shown in European studies to increase sperm count and help with impotence. Aside from sex drive, mood and self-confidence, testosterone maintains and builds muscle mass (thus the use of steroids, which is synthetic testosterone). Muscle in turn, burns fat and keeps the metabolism up, while maintaining lean body mass. The increased drive that testosterone brings, must be combined with weight training, which also raises testosterone, in order to gain serious muscle growth.

All **PROLINE** products deliver full disclosure of all ingredients and clinically proven doses so you know exactly what you're getting every time.

AMMO

PRE-WORKOUT SHOT

AMMO is the first pre-workout shot, AMMO is designed to improve all areas of physical performance by not only increasing strength and endurance, but by creating the perfect connection between the mind and the body instantly.

- Concentrated Formula
- Peak ATP 450mg
- 1.5 gr Agmatine Sulfate

AMMO is designed to be consumed as a shot to avoid the discomfort of being bloated during a workout, as well as providing better absorption. This ends with AMMO, no more dry scooping, coughing up powder or suffering through trying to choke down your pre-workout. You maybe consuming litres of water between your pre-workout, your intra-workout and your post workout drink leaving you bloated, bogged down and in gastric distress, this hurts your performance and slows your recovery.

All PROLINE products deliver full disclosure of all ingredients and clinically proven doses so you know exactly what you're getting every time.

CARNITINE BURN

PROLINE CARNITINE BURN™ is a refreshing L-Carnitine drink that effectively boosts energy levels and supports body fat reduction by assisting the body to release stored body fat and burning it as fuel.

L-Carnitine works by transporting fatty acids from food into the mitochondria of the cell where they are converted into energy. This allows you to burn fat during workouts, and will help to prevent muscle failure, fatigue. Green Coffee Bean and Green Tea serve as a natural, safe weight-loss agent and antioxidant, while working to promote an alert, focused mental state without the jitters. Grains of paradise is a natural fat burner which has been shown to help burn fat, reduce a person's appetite and boost their metabolism. Capsaicin can help speed up metabolism and reduce fat tissue, as well as suppressing appetite, while Chromium Picolinate can help improve insulin resistance and help regulate blood glucose levels.

Medicinal Ingredients / Ingrédients Médicinaux			
Serving Size: 1 Scoop (4.1 g) / Portion: 1 cuillerée (4,1 g)			
Servings Per Container: 30 / Portions par contenant : 30			
Amount / Quantité	per 1 Scoop (4.1 g) / par 1 cuillerée (4,1 g)	per 100g / par 100 g	
L-Carnitine Tartrate / Tartrate de L-Carnitine	1 g	24.3 g

Capsaicin (Black Pepper Extract) / Capsicine (Extrait de poivre noir)	2.6 mg	62 mg	
Chromium Picolinate / Picolinate de chrome	200 mcg	1 mg	

Non-Medicinal Ingredients: Natural Flavours (525 mg), Citric Acid (280 mg), Stevia (135 mg), Calcium Silicate (100 mg), Natural Blueberry Powder (for colour) (50 mg), Erythritol (50 mg), Silicon Dioxide (50 mg)

Ingrédients non médicinaux: Arômes naturels (525 mg), Acide citrique (280 mg), Extrait de feuilles de stévia (135 mg), Silicate de calcium (100 mg), Poudre de bleu de nature (couleur) (50 mg), Erythritol (50 mg), Dioxyde de silicium (50 mg)

Recommended Use: Mix 1 scoop of **CARNITINE BURN NATURAL** in 200ml to 250ml of cold water and shake for a few seconds. Take 1 serving per day 30 minutes prior to training, on non-training days take 1 serving per day on an empty stomach. During your workout, it is recommended that you drink plenty of water or performance beverage such as **PROLINE BCAA Stack** or **Vegan BCAA**.

Utilisation recommandée: Mélanger 1 cuillerée de **CARNITINE BURN NATURAL** dans 200 ml à 250 ml d'eau froide et agiter pendant quelques secondes. Prendre une portion par jour 30 minutes avant l'entraînement; les jours sans entraînement prendre une portion par jour avec l'estomac vide. Durant votre entraînement, il est recommandé de boire abondamment d'eau ou beverage qui aide à la performance, tel que le **PROLINE BCAA Stack** ou **Vegan BCAA**.
